Mentor Guidelines

Mentors serve as coaches or guides willing to share their educational and professional experience, knowledge and insights to aid the student mentee in achieving goals and aspirations. Mentors also function as an informal advisor available to listen to the educational and professional concerns and frustrations of the mentee. When feasible, mentors also assist the mentee in identifying available options or solutions. Mentoring requires strong listening and communication skills, as well as a great deal of patience.

Responsibilities of Mentor:

The mentor-mentee mapping is only for 1st year students for the academic session 2018-2019. To maximize the benefits of the mentoring relationship, the mentors should:

- Encourage student mentee to meet their educational and professional goals and objectives;
- Share relevant life and work experience to assist the student mentee in making educational and professional decisions;
- Provide support related to ragging matters;
- Provide psychological, mental, intellectual, moral, technical and any other support required in absence of their guardians;
- Encourage the student mentee to involve in campus sustainability project;
- Encourage the student mentee to retain brand value of Assam Engineering College;
- Communicate with the student mentees daily during the Induction Program.
- Communicate with the mentee atleast once each month after the Induction program is over.
